WHEN ENERGY IS ART

This invitation is valid for two people until
the exhibition closes on 19 April 2020

Exhibition:

TAKIS

'Electromagnetism is an infinite, invisible thing, [...] I would like to render it visible so as to communicate its existence and make its importance known; I would like to make visible this invisible, colourless, non-sensual, naked world which cannot irritate our eye, taste or sex. Which is simply pure thought.'
